VENTURE '87

Kempsville Jr. High School

Virginia Beach, Virginia

A Whole

A Path No
Man Has Taken . . .

*Lost.
Lost in
the midst of
confusion.*

*There is nothing
before you. There is
nothing behind you.
There is nowhere to go but
. . . A Whole New Way. One
must blaze a trail through the
void, for others to follow.*

*As a student begins his journey
through junior high school, there
are many paths from which to
choose. Realizing that the choice
of paths is important, he weighs
carefully the many factors which
will determine his decision.*

*As a seventh grader, the path is
the first actual choice of subjects,
and an opportunity to take part in
sports and club activities. It is a
year filled with learning ex-
periences for a young traveler.
The eighth grader, with a year
already traveled, begins to anti-
cipate the next path he should
choose. Although he has jour-
neyed, his destination still lies
ahead. A ninth grader, consid-
ered a seasoned traveler, meets the
decision with determination and
awareness. He goes his own way,
daring to venture "the path no
man has taken".*

New Way

A rare sight, an empty hallway at Kempsville Jr.

John Douglas (left), a member of the Kempsville High School golf team, walks to the ninth green during a fall tournament.

Students in sixth lunch gather around for a picture.

The Whole Picture

As school began, it was nearly impossible to look at the year ahead and see the whole picture. Determined to make it a good year, we unsuspectingly started on our way. Little did we know what was in store for us or what obstacles we might encounter.

A new year brought new friends, new activities, new subjects, and in some cases, new responsibilities. We were faced with choices and forced to make many decisions which influenced the course of our year. Many KJHS students became a part of a very busy schedule of events, but almost always found time to relax with friends.

As the year progressed, the "picture" began to take on more meaning and the goals set earlier became more real. Valuable lessons were learned from our experiences and it became more apparent just what lay ahead. There are still many uncertainties in our future but we can now begin to see the whole picture.

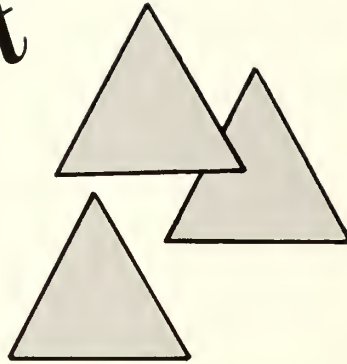

While Trish Goodwin and Jason George share a laugh, Brave Fever is exhibited by Erin Smith and Betsy Leffew.

Parlez-vous Francais? Seth Geyer improves his finesse of the French language while finishing his homework.

Just When You Thought It Was

Safe

"Okay class, you may pack up your books now; there are three minutes left in the bell."

For some people, this means last minute studying for next bell, but for experienced KJHS students, it means preparing themselves both mentally and physically for the path one must take through the halls. It means holding your books tightly to insure that they are not knocked out of your hands

and scattered onto the floor, and at the same time thinking about the strategic plan to beat the crowd at the intersections.

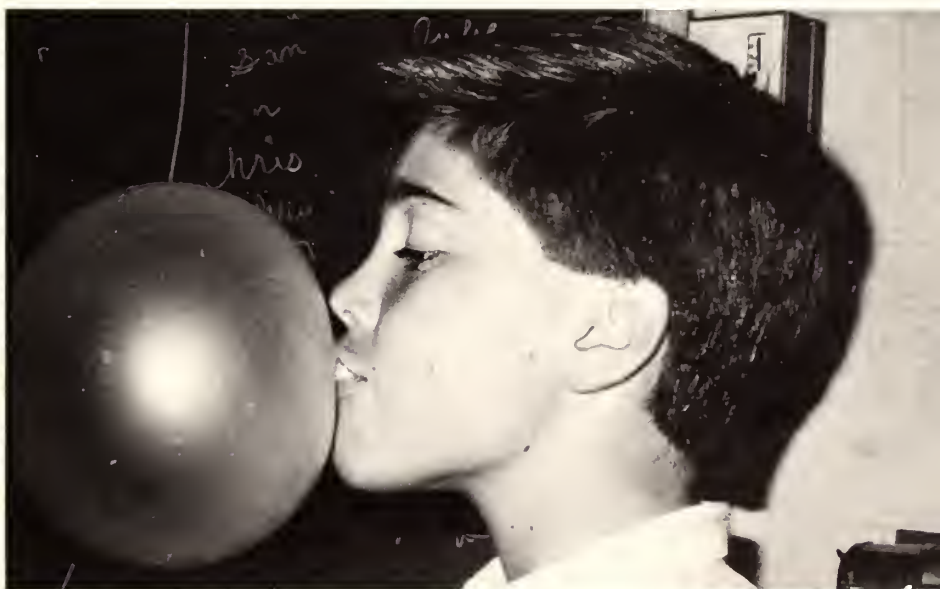

The bell rings and Kemp dashes out of the room confidently. He turns corners tightly and picks up speed as the lazy students meander out of their classrooms. By the time he is three-quarters of the way to his next class, the halls are filled with roaming zombies,

The KJHS Marching Braves show just how crazy they can get during a half-time performance.

Paige Prewett gets a little shock when she opens her locker.

Sean Collins uses the very few spare minutes he has each day to practice his bubble blowing.

showing no expression. He clutches his books and squeezes through openings between people. He eventually reaches his next class with a big smile, relaxing his arms, knowing that he has just conquered a great obstacle. His teacher turns to greet him and innocently bumps his books onto the floor . . . And just when he thought it was safe.

Summer

Danny Labyak and Jay Jenkins try to make summer last a little longer by reliving childhood moments on a seesaw, but September 2, 1986 was very real as students returned to school and summer ended.

Summer. It's the warmest of the four seasons and occurs approximately in the middle of each year. However, this definition means next to nothing to us, because as far as we are concerned, summer is the end of the year- the school year that is.

Think about what you did last summer. Many students went skating, even more went to the beach, some went on vacations, while others stayed at home. However you spent your time you had fun because that is what summer is all about. Unfortunately, having fun is a pretty tough job and a person must really work at it. To make the most of

every minute of summer, one tries to have fun twenty-four hours a day only to find many idle, boring hours. Something had to be found to fill this time: something constructive and interesting.

A job was the answer. Jobs such as a paper route, a car wash, babysitting, and even helping with household chores. We were able to earn money which we put to good use for surfboards, skateboards, radios, clothes, and other necessities.

While some of us were performing jobs for money, others were participating in jobs equally as hard, but for no pay. The football and field

hockey teams were preparing for their season ahead long before school started. The SCA officers, chairmen, and other students had met as early as July to begin preparation for orientation and the school year ahead. Because of their efforts, returning to school was much easier and we found a slightly different and better school atmosphere awaiting us.

As we walked into KJHS on September 2nd, summer jobs ended. We should applaud ourselves for making our summer all it could be — the beginning of a great year.

. . . NOT JUST A JOB

Erin Smith tries a new sport but finds the water a bit too cold.

SOME THINGS NEVER CHANGE

Although we knew that this year would pass in a much different way, we could not help but remember how some things never change. Keeping this in mind, we made the most of our fun and sometimes outlandish habits — even daring to call them traditions.

Supporting our Braves' sports teams and exhibiting our Brave Pride wherever we go have been ongoing traditions. Attending football games and celebrating victories at Milton's afterwards are traditions that any student who has ever attended Kempsville Jr. could describe and remember with a smile.

Dances are yet another subject on our unending list of things that never change. The Halloween Dance has always been an event at which students have gone "all out" to show their enthusiasm. The festive season is highlighted by the annual Christmas Dance right before the holidays, as everyone joins to celebrate and

have pictures taken with Santa. The long awaited ninth grade dance is an event for all students in their last year at Kempsville Jr., and the SCA takes this opportunity to say "thank you" to these students for what they have done.

As events become traditional, they also begin to be anticipated by the student body. These traditions have played an important role in setting our school apart from other schools in Virginia Beach. Although we did many things a whole new way, we continued to practice the traditions that have long been a part of life at KJHS. As the year comes to a close, we are able to see that traditionally, some things never change.

Bubba Caffee and Randall Evans show that the feeling of Brave Pride never changes as a few excited students take time out for a picture.

There's A Moon

Out Tonight

The night, once an evil time ruled by fear, but no longer. Now it is a festive time filled with joy. In these modern times we live in, we refer to the night as . . . party time; and no one does it better than the Braves.

After yet another Kempsville victory, we all retreated to Fairfield Shopping Center — all 300 of us. As we entered the Milton's Pizza located there, we took a deep breath and marched into the confusion. We switched from table to table only to frustrate our server and make things very difficult. Some people left Milton's to go to Hardee's or branched off to individual parties to continue sharing good times with friends.

On occasion during the year there was a KJHS dance which involved many students in preparation and in attendance. We would then dance into the night and share the evening with friends. The night began to wind down and the lights went out, and the party was over. We were able to sleep a little easier because we knew that the sun would come out tomorrow and that tomorrow would bring with it . . . tomorrow night.

Jason Scott lets his Brave Pride shine through his smile at the fall sports pep rally.

Although not new to KJHS, Julie Oh and Debbie Seehorn show to those new faces what great friendships are all about.

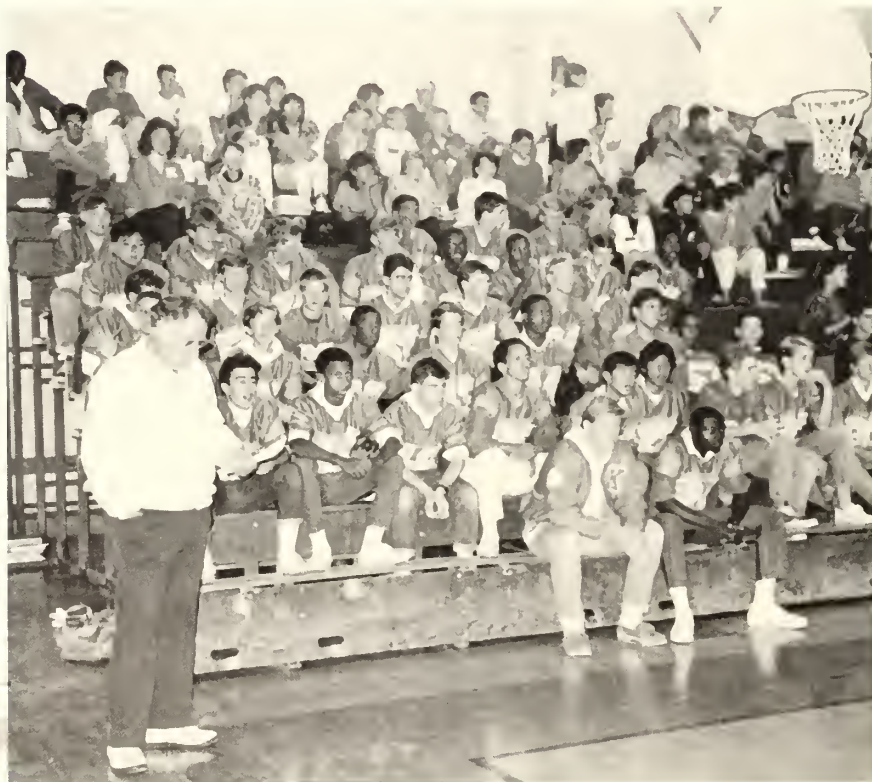

From Where We're Sitting

From where we're sitting the view is the same from year to year, yet, something about this view is different.

As we look over our shoulder, reflecting on the past, everything is very clear, the path we've chosen to take seems to extend for miles. We've ventured through both the glory of winning and the agony of defeat; through the tears and smiles. We look upon the accomplishments and goals we've set since we began: being Jr. High city football champions, raising the most money for the United Way, and getting an A in that subject, made the day to day

routine all the more fun. As we look back, we wish for a moment, that we could set back the hands of time, but we think ahead and wait for tomorrow to come. We especially reflect upon the cherished memories that will remain with each of us.

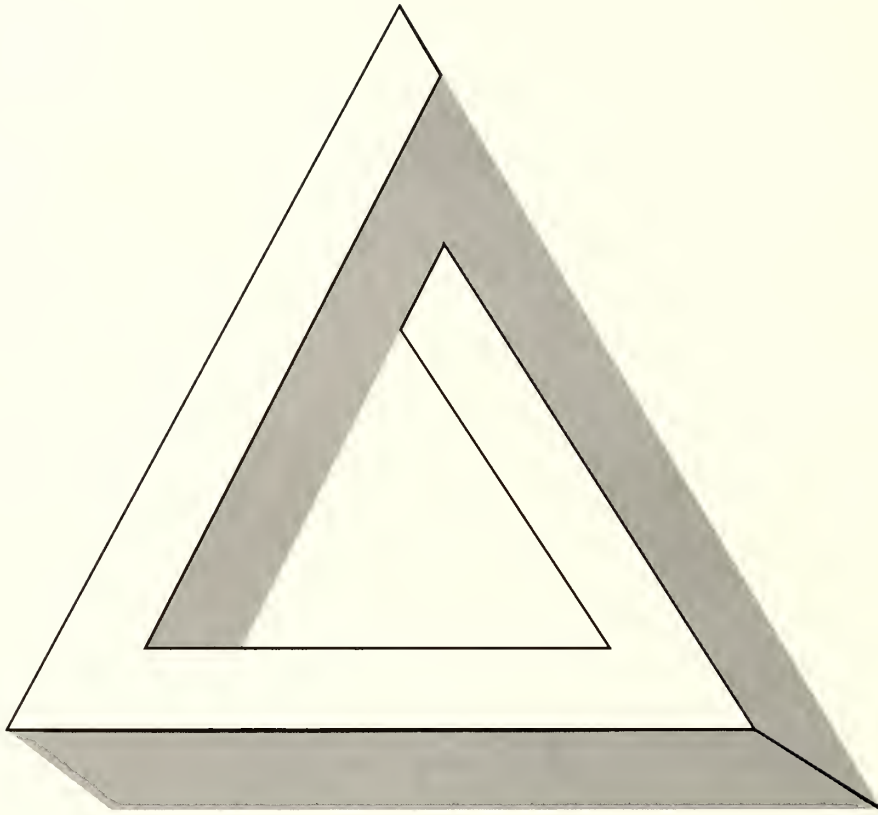

As we look to the future, we are timid at first, but it is something that we do not fear. The view from where we're sitting is very hazy and not really clear. We look at the beginning of the path we must take, the new goals we will set, and the journey we will make. As we look a bit closer, well, there is not much to say, only that it is time to take it A Whole New Way.

Cheryl Obleada ends a great routine at a KJHS football game.

An Example To Follow

Jay and Jonathan rush to get to class, while Mark finishes an assignment in the library.

As tradition, the ninth grade class of KJHS took the lead. The expected behavior of a ninth grader centered around the standards of setting an example and showing school pride. These students were enthusiastic to carry out tradition and to accept the responsibilities of being a school leader. They realized that the involvement in school life meant the difference between a wonderfully fulfilling year and a year of drudgery and boring school work.

Most ninth graders were involved in some school activity, ranging from athletics to academic clubs. They followed tradition in many ways but also left their mark by doing things a whole new way. The class of '90 played a big part in the very successful athletic seasons as well as a major part in the SCA activities that were recognized throughout the city. These students led the way through a fantastic year and set an example to follow.

Everything In Between

Amy Greene shows off her Halloween costume that she wore for Teen Living and Greg and Jennifer smiles for the camera between classes.

Opening their eyes to the excitement and challenge of junior high school life, eighth graders encountered a myriad of new and unforgettable experiences.

Too often, all of the credit is given to the first and last, usually forgetting about the middle. Being the ones in between, the eighth graders were often not given the credit that they deserved. They were enthusiastic and eager to get involved in school activities.

Take, for example, a relay team; the first runner and the last runner are important, but many times the race depends upon the performance of the middle runners. The KJHS eighth graders carried their baton proudly as they accepted new responsibilities. They looked back at past experiences and made plans for the future. As the entire student body joined together to make the year so successful, it was very apparent that every part was important — the first, the last, and everything in between.

A Clean slate

Thomas Lewis takes time before school to study and at the "New Faces" Dance, Lori and Paige mingle.

The seventh grader at Kempsville Jr. is presented with a clean slate as he begins his first school year as a junior high student. His job: to fill the slate with memories and experiences from the year.

The first writing on the slate looks oddly out of place, just as the seventh grader feels at the beginning of the year. But as the year progresses, new additions are made to the slate, as he becomes familiar with the procedures and overall spirit of KJHS.

As the year nears its end, the seventh grader looks back over his slate and realizes that he has learned a great deal and has begun to be a part of Kempsville Jr. The slate is now filled with many lessons and accomplishments which show how much the seventh grader has grown during the year. He realizes that he has only begun to fill the slate he was given and looks forward to adding to it in the years ahead.

MATTER OF PRINCIPAL

Norman Fields
Principal

Elizabeth Porter
Assistant Principal

Ron Keen
Assistant Principal

Bob Booth
Student Activities
Coordinator

Dr. E. E. Brickell, Superintendent
of Virginia Beach City Schools

With the 1986-87 school year came two new additions to our administration: Mr. Fields as principal and Mrs. Porter as one of the assistant principals. Joining with Mr. Keen, a familiar face at KJHS, the three of them were able to get the year off to a great start. Their enthusiasm and concern were felt throughout the year in all facets of school life.

Working closely with the principals was student activities co-ordinator, Mr. Booth. He worked very hard to make the activities at KJHS student oriented and was always available for giving guidance and advice.

Like building blocks, the foundation of a structure has to be strong — strong enough to support the weight of the rest. We were fortunate to have a stronger foundation than ever before because of the dedication of this administration. Their new ideas and long hours of service made KJHS the best ever.

We're Here For You

For years and years, Kempsville Jr. High's effectiveness has relied on many groups of people working together. One of these groups is the guidance department, who act as a major support system for all students. The counselors helped coordinate all of the classes and activities in addition to straightening schedules and aiding students in important decisions.

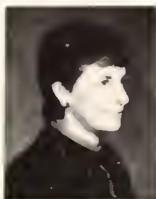

KJHS was very lucky to have a new director of guidance this year, Mrs. Pederson. She came to us from Brandon Jr. High and has become a valuable part of our staff. The five counselors were always on their toes to help students in any way possible. They were aware of

student needs and were "on top" of student progress — past and present. When students had questions about credits or graduation requirements, the counselors were the ones to see. Many times they acted as a communication bond among students, parents and teachers, as many problems were discussed and solved.

The dedication of the KJHS guidance counselors was stated to the student body at the orientation assembly when Mrs. Pederson said, "We're here for you." In looking back on the year we realize that they played a large part in the year and helped make it successful. Their duty never ends, nor does their dedication.

The guidance counselors at KJHS are always here for the students.

Stand By Me

"Oh I won't be afraid, no I won't be afraid, just as long as you stand — stand by me." A theme, very representative of the teacher - student relationship at KJHS. Teachers act as a support for students whenever possible, but the opposite is sometimes true as students support their teachers. Teachers give advice and guidance to their students, but sometimes they need advice too. How can I solve the talking problem in this class? How should the seating chart be changed?

What can I do to get more class participation? How can I better prepare everyone for the big tests? What could I do to be more sensitive to daily problems?

Who can answer these questions better than a student in that situation? Advice and communication work both ways and students and teachers can be a great help to each other in their daily routine. To stand by each other means to work hard to understand and sometimes even say, "Please Stand By Me".

Mrs. Harris tends to a patient while Serena uses the clinic phone.

You've Got A FRIEND

Before the school year even started, the KJHS teachers were preparing for a great year. Many were preparing to teach courses they had never taught before and were enthusiastic about the new course. Other teachers were returning to the same course schedule but were looking forward to new ideas and techniques. In addition to teaching an academic subject, some faculty members were involved in student activities and were busy planning for the new year.

As the year began, the student body did not really

know what to expect, but the experienced faculty already had detailed plans for the year ahead. At first, the students and teachers were distant; but as the 1986-87 session progressed, the gap closed, and a bond was formed between them. Not only was our faculty an inspiration to us academically, but also a support in all areas of school life.

As the school year came to an end, students and teachers alike looked back to see the beginnings of some true friendships — friendships that will last.

Without A Clue

Questions, questions, questions. There is probably not one person at KJHS who starts school without some questions or doubt. As teachers and students returned to school they began the year without a clue as to what was in store. A question mark was a graphic part of everyone's daily routine.

As the year progressed, the question mark got smaller as more clues were given and answers were established. The day-to-day routine became so easy because as it

was shared and discussed with the people who were a part of it all. Many students didn't realize what a big help a faculty member could be when asked. Students were often a big help to teachers. Even with the cooperation of all involved, there is still never just one clue that gives the answer. It involves putting many situations and answers together to come up with the best answers. Still there are the questions.

Mrs. Rowland and Mrs. Linsly have a conversation, as Mrs. Blanchard is having her picture taken for the yearbook.

Inquiring Minds

Sometimes it is difficult for students to realize that teachers are real people. Many students have the impression that teachers live and breathe the subject that they teach. They picture teachers spending twenty-four hours a day in school. But contrary to popular belief, teachers do have some of the same interests as students. Curious students have found out that :

- Mr. Spruill plays rugby
- Mrs. Varga takes ballet
- Ms. Reilly plays golf
- Mrs. Terrell plays the piano and sings
- Mr. Jones plays in a rock-n-roll band
- Mr. Long plays tennis
- Mrs. Garris is a crosstitch expert
- Mr. Stahl enjoys pistol shooting
- Mr. Fields enjoys fishing
- Mr. Chowns plays golf
- Mr. Dennis goes hunting
- Ms. Edmisten goes scuba diving
- Mrs. Ratliff is a cub scout leader
- Mrs. Sutton enjoys swimming
- Mr. Bulleit sings in a pub
- Mrs. Shorter flies an air plane

The Starting Point

On your mark, get set, go — the 1986-87 school year was on the starting block and ready to “go”. As early as mid-August, students received class schedules and were notified of their teacher assignments for the upcoming year. Phone lines were jammed by KJHS students calling each other to see what classes they might have in common. In anticipation of the new year, students began to make plans socially and academically. The beginning was exciting and all was off to a great start. As students and teachers entered the building on the first day of classes, the start was slow but sure, as everyone was determined to get off to a good start.

The school day for every teacher officially began at

7:25 AM as they made preparation to guide, listen to, understand and teach approximately 125 students. When the 8:20 AM bell rang to signify the beginning of first bell, all rose to pledge allegiance to the flag. A moment of silence was dedicated to thoughts for the day ahead.

Not only do teachers prepare for the “start” but also they must prepare for a smooth ending to a sometimes hectic day. Some leave school as the buses do to arrive home in time to greet a family of their own, while others remain at school to work in their rooms or to coach a team or advise a student group. No matter what the ending, the starting point is upon them once again. On your mark, get set, go!

This year the faculty numbered eighty-three of the most qualified teachers, reaching out to us every day to capture our enthusiasm to learn. They began to help us open our eyes and broaden our horizons through their different fields of interests. Our minds were touched as were our thoughts, as some of their wisdom was imparted upon us. Whether through English, science, or mathematics, their means of communication was through an exchange of ideas and a transmission of knowledge.

In their academic life, students need constant guidance and reassurance. Our faculty was always there and made it apparent that they were ready for any change. Through the classroom environment, they have helped us to develop emotionally as well as intellectually. When we needed that bit of extra help, they were always there to aid us in reaching our goals. Our faculty has taught us and advised us. We have been able to call upon them many times and we thank them for helping us grow and become wiser.

So each time a telephone rings, let that be a reminder of how many times one of our teachers has touched our thoughts, broadened our minds, and helped us reach our goals.

So hang on KJHS — this is the right number!

Baby Faces

"Baby face, you've got the cutest little baby face." — It is sometimes very hard to realize that teachers were ever babies, needing lots of parental attention and care. But to everyone's surprise we have baby photographs which are positive proof of the fact that some of your teachers were once babies. They have been through all of the changes that you have experienced as far as growing up. These teachers were once 7th, 8th, and 9th graders who went to junior high schools just like you do. They even had teachers that they couldn't imagine ever being babies.

The baby pictures on these pages are of KJHS teachers who have a very interesting background. It should be fun for you to try to identify the teachers from the clues given.

Try to identify each teacher and remember, "baby face — Noone could ever take your (their) place."

Mrs. Harris hangs out with the
Halloween monsters.

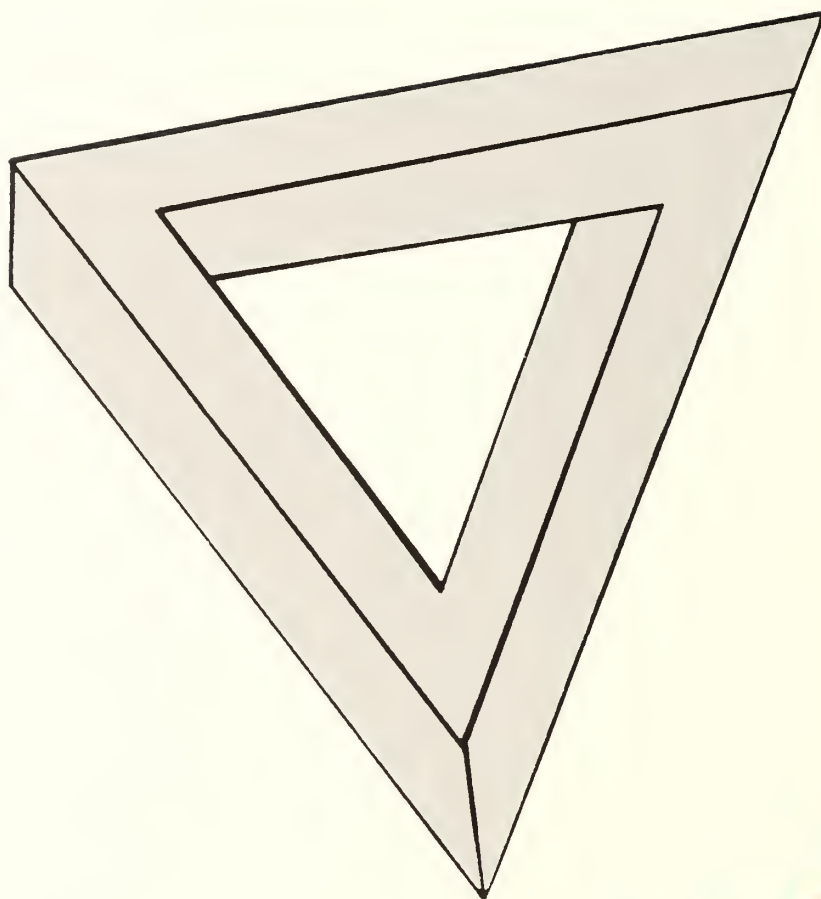

Who helps us each day if our locker is jammed and keeps our school in good repair? Who keeps the library running smoothly, making sure we have all the necessary books for our research? Who plans and prepares our daily menus, so that we have balanced, nutritious lunches? Who keeps track of attendance records and keeps the office organized? Who organizes bus schedules for transportation to school and to activities? And who helps discipline the students who break school rules?

The people in charge of these duties are many times overlooked and taken for granted. Their jobs are the back bone of the day-to-day school routine and when these things run smoothly the entire school atmosphere is more pleasant. These staff members arrived early each morning to begin the day and often were the last to leave as the day ended. With their dedication and organization they made such a difference. To tell the truth, the year would not have been so successful without them.

Just for the record... Mrs. Welch keeps the attendance as she types the absentee list.

Mrs. Harrop is always pleasant and helpful to the students in the KJHS library.

True Colors

Activities

Time In . . . Time Out

Heavy instruments, stiff uniforms, vigorous marching drills, precise musicianship - these elements, combined with dedication and a great deal of time, were factors in every performance of the KJHS Marching Braves. They spent much time "in" and time "out" throughout the year in preparation for their performances.

While each member had his own part to complete, all members had to join together as a whole in order to make their field shows a success. Under the able direction of Mr. Leonard, the band worked very hard to achieve excellence. In addition to providing entertainment at all home games, the Marching Braves participated in several area parades and traveled to Myrtle Beach, S. C. for competition in the spring.

As early as July, many members were attending band camps and summer practices to prepare for the year ahead. Several weeks before school started, the entire group began their preparation for football season through many hours of practice each day. With the beginning of school, came long afternoon marching practice and also hours of learning the selections to be played. As the band members anticipated their first performance, they were anxious. But after hearing the applause from the stands, they relaxed and realized that the many hours of practice had all been worthwhile. They were proud of what they had accomplished and proud that they had worked OVERTIME.

Honor Guard: (l to r) Lillian Gregorio, Amy Lofstedt, Danielle Rose, Tammy Smaltz, Vanessa Kinlaw, Eileen Arnaldo.

Fun and Games

The KJHS Concert band groups were made up of many students perfecting their skills in music. Some students were learning to play musical instruments for the first time, while others were advanced. The director of the KJHS bands, Mr. Leonard, organized each group and planned performances during which the students demonstrated their talents. Mr. Leonard brings a great deal of talent to his job as director; he plays professionally in musical groups outside of school.

The hard work of Mr. Leonard and the band members paid off at performance time. All of the band groups spent a great deal of time and effort showing their Brave pride and building a foundation for great Kempsville bands next year.

The Color Of...

Songs, symphonies, etc., and the art of composing or performing these. The performing groups in our school produced more than just music. The members of the orchestra were very serious about their music. Watching the orchestra was almost as interesting as listening to them. Learning a complicated piece takes practice and concentration. The orchestra met one bell each day and under the direction of Mrs. Stewart, the members became involved in creating beautiful sounds that showed their love of music.

Patiently learning new songs and perfecting the abilities, the KJHS choral groups were also serious about their music. Choral director, Mrs. Springsted, was enthusiastic and her enthusiasm spread throughout each of her groups. Each group met one bell every day to practice and plan for upcoming performances.

MUSIC

LET IT

The Student - Cooperative Association worked closely with the KJHS Administration throughout the year. The purpose of the student - elected government was to work for the good of the student body and to represent the interests of all of the students. It was made very clear from the beginning that all students were members of the S.C.A.

This dedicated group began work early in August , determined to make the year the most successful yet. The officers and many committee chairmen had the opportunity to attend the Leadership Workshop at Virginia Wesleyan to gather ideas for the year ahead. Through the guidance of sponsors , Mrs. Fruit and Mrs. Morgan , the group was able to put many of these ideas into effect. "Brave Pride , Let It Shine" was chosen as the theme for the year and was presented to new students at the August orientation by the SCA and KJHS cheerleaders. As the year began , many students and teachers alike, wore shirts displaying the SCA slogan.

The SCA has finished a very fun - filled and busy year , with many successful accomplishments. Besides the orientation , the SCA provided a "New Faces" dance to enable

old and new members of the student body to get together as school began . They sponsored a school - wide fundraiser in the fall which enabled many smaller school clubs to get involved. Halloween and Christmas Dances were enjoyed by a great deal of KJHS students thanks to the dedication of the Dance Committee. Besides fundraisers and dances , the SCA also involved itself in academics by providing a reception for Principal's list and honor roll students. Coffee was provided for the faculty during the month of December, compliments of the SCA, and a Spirit Week was a part of the month of January. Secret Pals were kept "secret" by SCA members as they delivered gifts and messages and sponsored breakfasts for the group.

As the end of the school year approached, plans were made for SCA elections for 1987-88 and the traditional ninth grade dance was planned. Both were very successful as KJHS students let their Brave Pride Shine. As the leaders of this year move on to Kempsville High School, the "new" leaders look forward to the coming year and hopes for an even better one.

Friends get together at one of the major SCA events.

Moral Support

Have you ever gone to the library, office, clinic or guidance office and found a fellow classmate waiting to assist you? These fellow students have set aside one full bell out of their daily schedule to help in one of these areas. Whether it was sorting books in the library or running an errand for one of the counselors, the extra help that they provided was much appreciated.

Mr. Booth, student activities coordinator, and Mr. Spruill, ISS coordinator, were also happy to get student help when it came to filing, running errands, and sending messages. The SAC helpers assisted Mr. Booth by helping him organize sports records and the school calendar, as well as selling programs at home football games. Students helping Mr. Spruill were able to make sure that all students in ISS had their class assignments. The student - worker program at KHS was been a big help to both students and staff alike.

Venture '87

The '87 Venture Staff decided to uphold brave traditions this year in *A Whole New Way*. Setting goals and actually achieving them was something that took patience and many hours of hard work. The Venture Staff's responsibility was not just to create a book of memories, but to help capture the memories for the entire student body so that they would actually last forever.

Along with patience and hard work, it took also friendship, understanding, and lots of time to achieve our goal. Being aware of the fact that each of the eighteen members was an individual with his own ideas, was perhaps what made the staff and our friendships so special. The time it took to lay out and design each page, to write each page of copy, and to choose and proportion each picture seems like only a short time now, but this book that you are reading will make this time last for many years to come.

Accomplishing the goal of reporting and sharing the events that filled the school year with the entire school is something that the staff is very proud of. The guidance, support, and friendship of our advisor, Ms. Wray has made us all realize that someone is always there wanting us to succeed and helping us in every way to do so. The memories of the 1986-87 school year are set here to last forever, and we will always share it together in *A Whole New Way*.

Fair and Square

only to seventh grade science students and this gave these younger students an opportunity to get involved in activities at KJHS. Sponsors, Mr. Phelps and Mr. Bakaysa, established the club to offer a time for students to share a common interest in all areas of science.

Another activity that was developed for students sharing common interests was the Comic Book Club. Mrs. Shields sponsored the group and gave them the outlet to share collections and exchange ideas. Students in the group were able to meet new people and leisurely talk with others having many of the same interests.

Comic Book: Row 1: Cliff Brinson, Teddy Lucero, James Umberger, George Culver, Greg Ewan. Row 2: Justin Ratiazak, Timmon Ark, Richard Patten, Neil Grochmal, Krishna Padiyar, Sponser: Mrs. Shields.

Science Club: Row 1: Meg Foster, Kristin Pierce, Colleen Peterson, Joe Flores. Row 2: Lauren Logan, Shelley Sadowski, Nancy Lu, Michelle McCammon.

Some students excell in their ability to vocalize and there were two KJHS activities that allowed members to show their expertise in this category.

Talented students were offered an opportunity to display their abilities through Forensics. With a variety of divisions to please all tastes, competition in this group included boys' and girls' original oratory, prose and poetry reading, extemporaneous speech and spelling. A semi - final round was held for all students interested and the winners were chosen from each category to represent our school at the city - wide contest, held this year, at Kempsville Jr.

Resolved: The U. S. should put an agricultural policy into effect. It was the affirmative team's goal to convince the judge that this is true, while the negative team tried to make it very clear that no change was needed. The KJHS Debate Team had four in - school debates and from

these, Grace Shen and Nancy Renwick were chosen for the affirmative and Dan Samek and Christina Richards, for the negative. They participated in four city-wide competitions and the debate tournament.

These two teams were very successful during the year and much of the success can be attributed to the able guidance of Miss McCain, for the Forensics team and Mrs. Young, for the the debate team.

Forensics: Row 1: Lisa Guidry, Kathy Roletter, Debbie Roberson, Kellie Rogers. Row 2: Verna Fajardo, Angela Brock, Shannon Juroff, Donna Doggett, Anna Nuger, Nancy Renwick, Elizabeth Urbaczewski, Nannatte Manuel. Row 3: Miss McCain, Mark Cochran, Julie Teats, Katrina Krause.

Never Surrender

Waiting Is The Hardest Part

Bake at 425 degrees for 13 minutes and wait for the product. Cooking was only one of the many homemaking skills that students were offered in "Teen Living".

Through this elective course, students had the opportunity to join the Future Homemakers of America. The Kempsville Chapter of the FHA was very active in many projects during the year. Under the leadership of advisors: Mrs. McCloud, Mrs. Pritchard, and Mrs. McAllister, the group participated in a campaign against drugs, using the slogan, "Just Say No".

Over the past several years, the FHA has played a large part in fundraising to purchase the foyer mat, the computer sign and the gym painting for KJHS. As a community project, the chapter participated in the March of Dimes Walk-A-Thon. Some of the members were selected to

attend state-wide events, a leadership conference, and all members were invited to attend the FHA city-wide banquet.

FHA: Row 1: Renee Shelton, Alexander Gargano, Jodi Perin, Scarlet Wells. Row 2: Jennifer Drain, Lori Burkhardt, Bobbi Dean, Tammy O'Bryant, Katina Cofer, Shelly Turner. Computer Club Row 1: Brian Foreman, Toshio Toido Row 2: Mark Gecolea, Michelle Oals, Verna Fajardo Row 3: Steven Crawford, Billy Thomas, Ray Nagal, Mrs. Foster

Future Business Leaders of America is a club associated with students who are enrolled in General Business at KJHS. FBLA provided additional opportunities for students to develop vocational and career related skills. Under the leadership of Mrs. Frazier, their business teacher and sponsor, the group had a successful year.

Another group was formed to also enhance careers in the computer field. Under the leadership and expertise of Mrs. Foster, the computer club met to share a common interest and exchange ideas. The club gave the members more time at the computer than the time allowed during school hours.

STARS AT PLAY

All work and no play may have been fine for some students, but many enjoyed a little variety during the day. Classes such as art and drama provided this variety for many students at KJHS. As an extension of these classes, after school clubs were formed to allow students unable to fit them into their schedules to participate, as well as students enrolled, who would like to learn more.

Advisors, Mrs. Fruit and Mrs. Ratliff shared their artistic abilities with the art club. They discussed art periods, styles and artists, and most of all, offered advice about student art. Members were lucky to have the chance to use and improve their creativity.

Playing a role is sometimes a great deal of fun, particularly for people who are creative. The drama club was formed to give this outlet to talented students. Under the direction of Mrs. Springsted, the drama club participated in the One Act Play Festival and received a good rating. The group selected "Cinderella" as their spring musical and it was a huge success.

Drama: Row 1: Liz Gardner, Michelle Loch, Stacey Wallace, Elizabeth Brown, Sarah Hoffman, Stacey Fentress, Beth Dorband. Row 2: Greg Sewell, Adam Jones, Allison Moore, Jennifer Williams, Amy Savoy, Kim Meek, Elizabeth Urbaczski. Row 3: Katrina Krause, Anna Nuger, Sherry Weinstein, Aimee Cones. Row 3: Amy Younger, Lisa Hess, Grace Shen, Jenny Hobson, Krista Royal, David Monteith, Dan McElwee, Kathy Kretschmar, Kathy Rose, Holly Peele, Meredith Taylor, Teddy Lucero.

GRADE EXPECTATIONS

Scholarship, character, leadership and service are the four basic principals upon which the National Jr. Honor Society is based. The KJHS chapter is an active organization comprised of twenty members, under advisors, Mrs. Chester and Ms. Wray.

The group had a very successful year as it participated in many school and community projects. The members accepted the responsibility of cleaning the football stadium after the three home games in the fall. They also adopted a needy family at Thanksgiving, visited Virginia Beach General Hospital on Christmas Eve and donated a fruit basket to a nursing home. In addition to the community service projects, the NJHS sponsored a year long tutoring program for fellow students needing help in their academic subjects.

As the end of the year approached, members were busy making plans for the spring "tapping" ceremony and reception. Through leadership of the very capable officers, the NJHS had a very successful year and proved that it is truly an "honor" to be a member of Kempsville Jr.'s chapter of the NJHS.

National
Junior
Honor
Society

The "Brave Bulletin" has become a tradition at KJHS. It offers the students a school newspaper through which they can learn about school events, as well as express their own opinions if they wish. Through the four issues published during the school year, the staff tried very hard to cover all aspects of life at Kempsville Jr. They concentrated on student interests and gave all members of the student body the chance to write editorials if they chose.

Crucial to the organization of the staff was, sponsor, Mrs. Young, and co-editors-in-chief, Vincent Gonzaga and Dan Samek. Through their leadership and the combined efforts of the entire staff, the KJHS newspaper publication had another successful year.

Editors: Row 1: Nancy Labuguen, Lillian Gregorio, Jerry Strohkorb.
Row 2: Anjo Teagle, Leslie Brownstein, Cliff Brinson, Dan Samek, Vincent Gonzaga. Row 3: Katrina Krause, Michael Patterson.

Just Our Type

Traditions Reborn

Nexus. Row 1: Michele Montilla, Rochelle Mones, Nannette Manver, Nanthan Fountain, Molly Taylor. Row 2: Mrs. Rowland, Katrina Krause, Theresa Tuttle, Heather Snukis, Nancy Renwick, Cecil Abogadie, Anna Nuger, Mrs. Eagan. Row 3: Lillian Rodriguez, Marc Quintana, Vincent Gonzaga, Jay Williams, Amy Cohen.

NEXUS, Kempsville Jr.'s literary magazine, is a source of the literary talents of a number of KJHS students. The magazine is written by students, put together by students, and published by students. To encourage the students to write, the staff held a writer of the month contest where each winner was awarded a cash prize. Mrs. Rowland led the group as it began only its second year as a part of KJHS activities. Vincent Gonzaga was elected editor, and along with the staff, worked very hard to make NEXUS '87 a magazine that the entire student body could be proud of.

Foreign Intrigue

Learning a second language was a big part of the lives of many KJHS students. An extension of language and culture was the purpose of the foreign language clubs this year. Three major groups were formed and each participated in projects which related to their discipline.

Venit, videt, vicit. The Latin Club: it came, it saw, it conquered, at the annual Virginia Jr. Classical League convention. The KJHS Latin Club, sponsored by Mrs. Blanchard, had several students place in academic competition as the club was very successful.

The Spanish Club provided students who were taking Spanish with an opportunity to learn more about the customs of the Hispanic countries. "Una fiesta" was celebrated at Christmas and Easter seasons in typical Spanish tradition. Sponsors, Mrs. MacIntire and Mrs. Barnett, encouraged participation in Foreign Language Week.

"En Francais" might be a typical reply heard from French Club sponsors, Mrs. Behrens and Mrs. Reilly. They offered the club for students taking French and participated in several activities during the year. The Christmas season was highlighted with a Christmas Yule cake contest. During March, Mardi Gras, was discussed and described and a mask contest was held. Along with other activities, the French Club also participated in Foreign language week.

Valete, Adios, Avoir.

French Club: Row 1: Allison Berger, Laura Braz, Beth Mansfield, Nika Lichonczak, Sean Goldsmith, Tatiana Graf, Debbie Seahorn, Heather Bates, Elizabeth Brown, Kari Cluverius. Row 2: Jennifer Bayman, Liz Gardner, Nicole Bialkin, Greg Crowley, David Jones, Nancy Renwick, Ricard Patton. Row 3: Anna Rogers, Noel Danielson, Jason George, Mark Cochran, Vanessa Kinlaw, J.R. Richardson, Philp LaBudde.

Three Different Angles

Each year the KJHS faculty is asked to nominate ninth grade students whom they feel have been a service to the school, faculty and student body. There were twelve candidates for the '87 Service Award and each should be commended for this recognition.

From the twelve candidates, the faculty of KJHS selected three recipients of the 1987 Service Award. They are Trish Goodwin, Erin Smith, and Vincent Gonzaga. They played a major role in many facets of school life at KJHS and carried out all responsibilities accepted to the utmost.

As President of the SCA and Features Editor for the yearbook staff, Trish devoted a great deal of time to school organizations. Not only was she a leader in these groups, but was also a member of the NJHS and Latin Club. Trish was also a valuable member of the field hockey and softball teams and was chosen by the coaches as one of the Athletes of the Year. One faculty member described her as "a credit to her family, school, and community."

Erin was very active in all facets of KJHS. As yearbook Editor and Secretary of the NJHS, she demonstrated a

great deal of leadership and organization. She not only led these groups, but also played a large part in the SCA as a committee chairman and was selected as student representative for the P.E. Curriculum Committee. In addition to these activities, Erin was also a KJHS cheerleader which is a demanding job in itself. A faculty member described her as "a most cooperative and helpful student who has a very positive attitude and is very creative."

Being the editor of two publications is quite time consuming, but Vincent did a fabulous job at both and still managed to have time for other activities. He was the Editor of NEXUS, the KJHS literary magazine, and Co-editor of the "Brave Bulletin", the school newspaper. Vincent played a large part in SCA activities as Publicity Chairman and at the same time was President of the Art Club and a member of the Spanish Club and the NJHS. He was described by a faculty member as "a student who excels at most anything he attempts and never fails to be respectful, courteous, and cooperative."

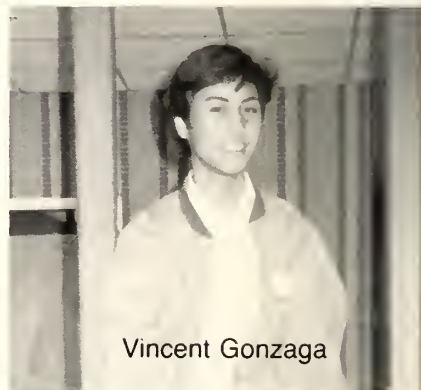

These students are to also be commended for their participation in community activities and for their excellence in the areas of academics and citizenship, while serving the faculty and student body of KJHS. This is one of the highest honors bestowed upon a member of our student body, and these students come from three different angles to prove that there are "three sides" to every agreement.

The 1986 - 87 cheerleaders started their season last April as the squad was chosen and practice began. Just as many groups began the year with new goals, so did the twelve members of the cheering squad. With only one member returning from last year, they had their work cut out for them to prepare for their first activity - Orientation. Bobbie Salang, returning to the squad, and Rachel Olzinski, a new comer, were elected captains and worked very hard to help prepare the group for every game.

Being a cheerleader at KJHS is possibly one of the hardest tasks for a person to perform. They are expected to keep up good grades, cheer at all fall and winter sports events, plan and lead pep rallies and act as an example in and out of school. With her experience and knowledge, sponsor, Mrs.

Marjie Serrano

Gamble was able to guide the girls through the year of ups and downs.

Cheerleading is a sport, a sport for three seasons. They practice, perfect, and perform and often enter in competition. Their goal is to promote spirit and sportsmanship at all times. It's sometimes called "spectators sport" because the spectators are often caught watching them rather than the game.

O ne

"Our football team had an outstanding season, considering there were only six people returning from the year before."

As City Champions last year, it looked as if the Braves record would be hard to beat. With great determination and many, long hours of practice, this team was able to beat the previous record and remain city - champion for the second season in a row.

No offense was as strong and no defense was as powerful as the 1986 Kempsville Jr. football squad. They finished their season as the only undefeated team in the beach. The offense was led by Randall Evans, Tony Griffen, Mark Lagoc, and Kevin Harrison, while the defense was strong with Alan

Ortiz, Bubba Caffee, Tony Griffen, and Chris McGarity. Through their dedication and knowledge, coaches, Mr. Hicks and Mr. Spriull, led the team to capture the city championship on Thursday, November 6 as the Braves defeated the Lynnhaven Bluefish, 15 - 0.

The 1987 season is already looking hopeful, as returning seventh and eighth grade players bring their skill and knowledge back to field. Looking forward to next year's fall season are Gary Snyder, Carlo Velso, Chris Thomas, Charles Daniels, Jeff Scott and Tony Luckman.

Football: Row 1: Timothy Clark, Chad Knudson, Jason McDowell, Carlo Veldso, Vince Callis, Gary Snyder, Tony Bobulinski, Mark Lago, Bryce Reulbach, John Lineback. Row 2: Jason Travinski, Eric Spence, David Torgenson, James Booker, Nick Jeppi, Tony Luckman, Chris Thomas, Chris Shults, Tony Griffin, Kevin Harrison, Mike Lohr - manager. Row 3: Brian McLellan - manager, Todd Mitchell, Randy Johnson, Greg Bulman, Jimmy Hickling, Jeff Duplain, Eric Withrow, Kevin Francis, Steve Fuller, Charles Danehy, Jason George. Row 4: Coach Hicks, Chris McGarity, Chris Raney, Brian Fanning, Brian King, Kenneth "Bubba" Caffee, Randall Evans, Alan Orts, Jeff Scott, Chris Simmons, Steve Lumpkin, Mark Findlay

More Time

*E*very Move You

Make

The KJHS wrestling team had one of the most successful seasons of recent years. A 7-1 record is excellent considering there were only four starters returning from the previous year. Bill Bartolomea, who wrestled 84; Nick Durney, who wrestled 91; and Tony Griffin at 145 all placed second in the city tournament; and Alan Orts, won the tournament at heavy-weight. The braves had only one loss in their season which was to the city-champions, the Great Neck Gulls. The braves didn't give up, and went on to win their next seven matches.

Going into the tournament, the braves were ranked second in the city. With only one city champ, it didn't seem likely that they would place in the top three, but due to the fact that all but two of the wrestlers pla-

ced in the top four, the team went on to take a strong second.

None of this would have been possible if it weren't for the expert coaching of Mr. Tim Spruill. Coach Spruill wrestled at Great Bridge High School and then went on to place in nationals during college. While not wrestling, he spends his time coaching defense for the Braves football team and plays rugby.

Next year's team also looks strong with four people returning. They are Chris Fussell, who placed third in the city; Charles Daniels, who also placed third in the city; Chris Thomas, and Carlo Veloso. There are also many young wrestlers coming up who are now in the pee-wee wrestling club, also coached by Tim Spruill.

"This year has been by far the most satisfying for me as a coach. The boys really worked hard on their own, I didn't have to push them, they pushed themselves."

Wrestling: Row 1: Tony Bobulinski, Steve McSweeney, Carlo Veloso, John Douglas, Jason Freedman, Nick Durney, Bill Bartolomea, Chris Fussell. Row 2: Alan Orts, Brian Fanning, Chris Shults, Tony Griffin, Charles Daniels, Chris Thomas, Eric Spence, coach - Tim Spruill.

S topping At

N O T H I N G

Determination enabled the boys basketball team to play a tough and disappointing season. The team showed their brave pride by never giving up when the going got tough. Perhaps the factor that kept them going was that they had the ability to accept defeat, yet, to continue playing as a team.

Mr. Nixon, the coach, supported the basketball team 100%. He gave his time and help so that if they couldn't always win, they could be proud of their games. Leading the braves were co - captains Matt Rice and Alex Firoved. Along with the co - captains were Kevin Francis, Tommy Casey, Chris Simmons and Steve Lumpkin. In the '87-'88 season there will only be one returning player, William Midget, so the team looks forward to a building season.

"They say its not whether you win or loose but how you play the game and that's the way our season was."

*This is a story of the Kempsville
Braves,
A mighty basketball team on
fire.
Our desire, spirit, and skill
were well known,
But our defense left alot to be
desired.*

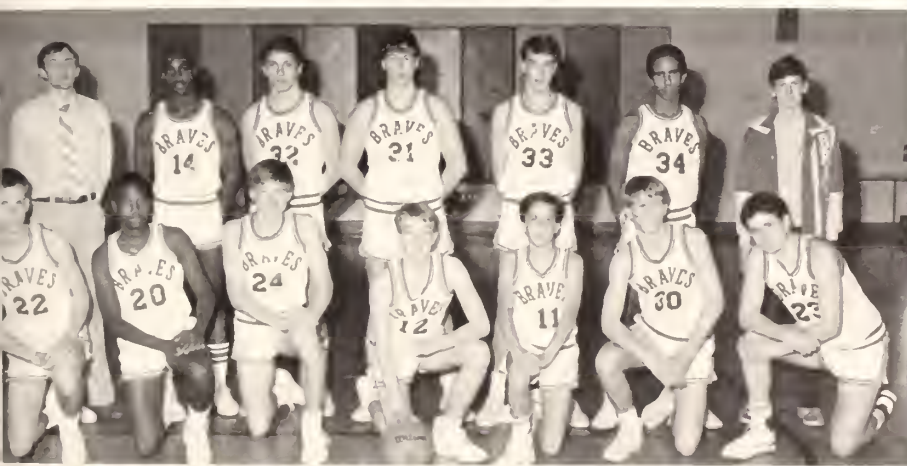

*We fought all year to try to win,
But...hey...don't look so
solemn.
Not all victories in life you see,
Are measured in the win and
loss column.*

*Our coach gave us leadership,
the drive to win,
And the courage to give it our
best.
The buddy system showed us
how to improve,
But...hey...basketball is only a
test.*

*The real lessons learned this
season,
Will help us when we're down
and out.
Working together for the
benefit of the team,
Is really what life is all about.*

*We will remember this season
as a good one,
But for the '86-'87 Braves, it's
good-bye.
But we hope our fans will come
to see us next year,
When we are playing for
Kempsville High.*

- Matt Rice

Boys' Basketball: Row 1: Glenn Brown, Les Bracey, Matt Dullaghan, Matt Rice, Marco Gargano, Chris Ramey, William Midget Row 2: coach - Jim Nixon, Steve Copes, Tad Zepnikowski, Tommy Casey, Steve Lumpkin, Chris Simmons, manager - Steve Crawford

Their ime

"The hockey team had an outstanding season. They pulled together and proved from start to finish that they were winners."

IS NOW

Field Hockey Row 1 Jennifer Acey, Kate Mansfield, Erika Swanson, Betsy Russell, Melanie Ransdell, Beth McCoy, Laura Davis, Missy Baker Row 2 Christy Smith (mgr.), Allison Day, Robin McCart, Julia Murphy, Amy Walker, Trish Goodwin, Elizabeth Urbaczewski, Alison Rothschild, Jennifer Phelps (mgr.) Row 3 Kristen Maslow, Noel Danielson, Stacia Bobulinski, Kathleen Master, Elizabeth Mansfield, Amy Morton, Kim Wildey, Tricia Davis, Kathleen McCabe (assistant coach), Ms. Taylor (coach)

This team was described as a team out to prove something, and prove something they did. Winning only one game last year was all the more reason for the team to strive for the city championship. In the opening game of the season, the lady Braves captured their first win with a score of 1-0. This gave the team the super start that they needed to continue winning and finish the regular season with 6 wins, 0 losses, and 2 ties. The record put them in a category above all other KJHS field hockey teams, undefeated.

Coach Taylor gave her all as she shared her knowledge of the game and determination with her team. The offence was led by Allison Day, Betsy Russell, Kathleen Master, and Laura Davis. Leading the defense were Trish Goodwin and Missy Baker.

Finishing the season as regular season champs, the Braves were scheduled to meet the Independence Eagles in the play-off game. Both teams were confident yet anxious as the game began, but in the end, the Braves were edged out by the Eagles, 2-0.

Looking to the future, next year's team is anxious to achieve a city championship of their own. With the high skill level of the returning eighth graders, capturing the championship is a definite possibility. Four star players returning to ensure a victorious season are Allison Rothschild, Robin McCart, Betsy Russell, and Laura Davis. Although they show potential, it will take a lot of hard work for next year's team to top the championship record of the former lady Braves.

Hard Breaks Come at the End

When the girls' basketball team opened their season in early December with a victory over the Virginia Beach Seahawks, it was a sign that good times were to come. In the '86-'87 season the lady braves fulfilled their goal of participating in city-wide tournament action. The team played seriously, yet, had fun in the process. Mrs. Copeland, who has been the coach at Kempsville for four years, guided the team in their winning efforts.

The team was lead by a strong starting five, Amy Lofstedt, Michele Hager, Kesi Franklin,

Gretchen Harley, and Susan Voelkel. Other members of the team demonstrated good skills and the ability to work together. The team went to the the play-offs, and later advanced to the finals. Although the team could not capture the city title, their ability and sportsmanship made them a team with great spirit and pride.

With three returning players of the starting five the team can look forward to a great season in '87-'88. They will again work together to achieve the goal of a successful season.

Girls' Basketball. Row 1: Michele Hager, Susan Hoff, captains - Susan Voelkel and Gretchen Harley, Aimee Walker, Kesi Franklin, Charisse Warren. Row 2: coach - Sandra Copeland, Shanette Sherrod, Stephanie Hall, Amy Lofstedt, Missy Brown, Stacia Bobulinski, Tekiyah Evans.

"The girls achieved an excellent balance between a seriousness to accomplish their goals and a consciousness to enjoy the sport."

Energy in

Motion

Hard work always pays off, and when it came to the '86-'87 gymnastics team, their work did pay off. Using techniques of endurance, flexibility, and strength, the gymnastics team prepared all season to have a great team, but what they got instead was a record of 8-1 and a second place title for the season. To finish their season, the team won a third place victory at the city tournament.

Behind all this talent were two dedicated coaches, Ms. Tuthill and assistant coach, Mrs. Spruill. They supported the team as well as helped them every afternoon to become as successful as they were. Aimee Miles and Meredith Keagan were the two co-captains.

The twelve members of the gymnastics team learned the meaning of sportsmanship and friendship and also proved that they were energy in motion.

Gymnastics: Row 1: Dena Baker Row 2: manager - Melissa Miles, Kristen Walker, manager - Lori Glick, Kerry Couch, Erika Williams, manager - Debbie Polcrano, Nancy Salomonsky, manager - Holly Peele. Row 3: coach - Linda Tuthill, co - captain - Aimee Miles, Carrie Dasheild, manager - Noel Danielson, Dawn Higgins, Tara Carlock, manager - Amy Green, Kate Mansfield, co - captain - Meredith Keagan.

"Gymnastics is physically demanding and requires skill. This season has been both exciting and successful."

Sprinting Finish

An undefeated season - what a way to finish. The successful season was anticipated by many of the boys' track team members as they began conditioning and training as early as January to prepare for their spring season.

When a team goes through a season with an undefeated record, several things can be attributed. The coaching staff is an important part of such a success. Coach Hassell brings a great deal of experience to this team as he has been a track coach at KJHS for ten years. Helping Mr. Hassell was a former, Brook Donahue, and a KJHS parent Mr. Green. They coached and supported the sprinters and vaulters to their wins in each meet.

Another important factor in success of such a team is the leadership of the team captains. Kevin Fonville, Randall Evans, and Andy Ege were key, as team members respected their advice and opinions in practicing and conditioning. Also team leaders were Galem Boyd, Damon Desue, Chris Dimaya, and Patrick Henry.

Combining the efforts of all these people and a great deal of pride and dedication, this team was prepared for the city meet. After two days of competition, the KJHS boys' track team finished first in the city to bring the trophy to Kempsville. The '87 season looks promising as many team members return to defend this championship.

Boys' Track: Row 1: Scott Wells, Jonathan Jenkins, John Lineback, Darren Madison, Mike Robinson, Jermaine Wilson, Damon Desue, Bill Bartolomea, Jeff Durr, Andy Pierce, Lance Jesse, Galen Boyd, Brian Keel, Terry Meek, Scott Grahm, Amel Lavarias, Scott Green, assistant Coach - Brooke Donahue. Row 2: coach - Joe Hassell, Bryon Grow, Scott Taylor, Donald Carter, Steve Crawford, Robbie Hawthorne, Eric Spriggs, Trae Duty, Scott Napak, Randy Douglass, Greg Vaughan, Andrew Ege, Kahrim Strayhorn, Chris Dimaya, Mike Himchack, Todd Zepnikowski, Mark Blaha, Randall Evans, Kevin Fonville, Patrick Henry, Kevin Harrison, Kip Poore, Sean Mathews, Jake Green, manager - Jennifer Lacey, coach - Green.

"I was really proud of this team, it was one of the best teams and seasons I've ever had. They all worked very hard and were deserving of the city championship"

Passing All The Rest

Boys' Soccer. Row 1: David Larson, Will Valentine, Bill Russel, John Maloney, Matt Wallace, Joe Barakey, Mike Barakey. Row 2: Rob Furgeson, Brad Yamada, Jason Hilton, Sean Britton, Sean Collins, Chris Watson. Row 3: coach - Bob Sockolinski, Alex Firoved, Craig Holcombe, Nick Anderson, Tim Flora, Jason Eminizer, Jason Dunks, Danny Pierson.

"With determination and skill, the soccer team reached its full potential during their season. They worked very hard on and off the field."

Beginning the season with a victory is important for the rest of the year and the Braves with a 1 - 0 victory over Princess Anne did just that. Lead by ninth graders Tim Flora, Jason Dunks, Jason Hylton, Will Valentine, and Jason Eminizer. Under the expert guidance of coach Bob Sokelinski, the Braves carried that early season momentum to a final record of 6 - 2.

In the semi - final of the city - tournament, the Braves had to overcome the Lynnhaven Blues, who had earlier in the season defeated Kempsville by a 4 - 1 margin. The boys knew that is what they had to do, and they did just that ending the game in the Brave's favor.

The finals came the very next week. It was the day of the game and the weather was very cold and rainy. The Braves were caught off guard and Brandon took a 4 - 0 lead. The boys never gave up and scored a goal in the last few minutes of the game. Before the Braves could catch up, the final whistle was blown and the Chargers walked away with the title.

O f f and Running

It all started in February, the weather was cold and the spirits were high, as everyone interested began to run and get in shape for track and field events. As the team was chosen, conditioning began and competition for each event became apponent. The long distance runners ran to Mt. Trashmore, while the sprinters practiced their starts. Vaulters, hurdlers, and jumpers practiced many hours to perfect their skills and prepare for competition.

The girls' track team began their season in March as they met the Bayside Raiders. Our Lady Braves left the Raiders in their "tracks" as they dominated with a score of 85 - 15. The team had a very successful season under the leadership of coaches, Mr. Bulleit and Mrs. Chrismore. They shared their

knowledge and expertise about running and conditioning with the team, as many potential runners began to develop their skills. A former KJHS team member, Brooke Donahue, volunteered his time and experience to help the sprinters and played a major part in their success.

In addition to the leadership of the coaches, was encouragement and support from team leaders, Julie Harris, Jai Pelham, Carmen Johnson, Alisa Crowder, and Tiwana Jones. The spring was very exciting and quite competitive, as the girls' team finished with a 2 - 3 record and came back to capture second place in the city at the city - wide meet. Next season proves to be very promising, as many runners will return and strive for that championship.

"Although our regular season record didn't show it, we had a really strong team last year. Our second place finish at the city meet was testimony to the talent we had."

Girls' Track: Row 1 : Lillian Gregorio, Frances Manosca, Kit Bardsley, Carmen Johnson, April Hand, Misty Shaver, Shelley Braun, Betsy Russell. Row 2: Beth Walden, Michelle Morgan, Lisa Demma, Stacey McCracken, Debbie Pope, Audra Matter, Diane Stein, Natalie Toida, Takiyah Evans, Julie Wryck, Tiwana Jones. Row 3: coach - Jim Bulleit and Connie Chrismore, Whitney Wilson, Shannon Thompson, Kristen Maslow, Jennifer Snukis, Bobbie Salang, Alisa Crowder, Chrissie Carlson, Jai Pelham, Keisha Reid, Kesi Franklin, Sonya Senior, Dawn Daniel, Beth Ege, Jennifer Hague, Shannon Daniel, Jennifer Gregorio, Anissa Poore, coach - Brooke Donahue.

I n the Swing

Of Things

As the first hint of spring and warm weather emerged, bats, balls, gloves, and hats began to be a common sight at KJHS and the avid baseball players began to warm-up for the season ahead. Many time the weather is an important factor in preparing for a spring sport and this season was no exception. Rain and extremely cold temperatures caused some problems, particularly at the beginning of the season.

The phrase "It's not whether you win oor loose, it's how you play the game," came into focus when the players reflected upon their season. By only having three returning players, the team's experience was weak, but their determination and pride made them strong. Even if the baseball team didn't always win, they learned to play as a team and work hard for next season.

The '87 season looks to be a promising one with eight out the eighteen players returning. With the leadership of these eight players, and hard work, the team should be able to overcome the obstacles that held them back and face the '87 season with brave "know-how."

"It was an enjoyable season, yet I looked at it not as a winning one, but a rebuilding one."

Baseball: Row 1: Jamiee Sanders, Enoch Bentley, Jeff Duplain, Vince Callis, Brian Foxworth, Chip Kinnach, Jeff Lewis, Brent Fulkerson, Seth Geyer. Row 2: Coach - Tom Chowns, Wayne Teal, Chris McGarity, Chris Robino, Mike Wertz, Kevin Francis, George Wasenius, Jamie DeLoatche, Mike Nishnik, Travis Sutton.

L et's play ball

Girls' Softball. Row 1: Kristin Houser, Jeannie Sosnowski, Marcey McCammon, Becky Blackman, Robin McCart, Julie Matysek, Charlene Garrison, Teresa Days. Row 2: Leslie Teach - manager, Tricia Davis, Jodi Burgett, Kristi Lesh, Michelle Clark, coach - Sarah Taylor, Colleen Gannon, Heather Bates, Beth Walters, Trish Goodwin.

"The team set attainable goals and reached most of them. Their record, however, does not reflect the improvement and dedication of the girls."

Nothing ventured, nothing gained is the phrase that best describes the softball team's '86 season. Even though the team didn't have a winning season, they played as a team and worked harder each game. Their spirit and determination helped the team to be optimistic and set their goals according to their abilities.

Their coach, Sarah Taylor was always willing to help them learn from their past mistakes and grow stronger as a team. Ms. Taylor's unending support was a great asset to the team. The two captains helped the other members realize that being a good team doesn't always have to mean coming out on top.

With six returning players in the '87 season including Heather Bates, Christie Lesh, Trica Davis, Julie Matasak, Robin McCart, and Marcy McCammon, the team can look forward to setting higher goals for a successful season.

Soc' It

To Her

The girls soccer team was really on the ball during their season. Soon after try-outs, the team began to build their endurance and perfect their skills. The twenty-two members proved themselves to be a hard working team with the desire and ability to have a 6-2 record. The soccer team dribbled their way into the semi-finals to finish in fourth place.

The guidance of their coach Ms. Laufersweiler helped the team be more successful. She got the girls into the "kick" of things by giving her support in strategically planning for each game. The co-captains Lori Bishop, and Nicki Hitchings helped to further gain team unity. The girls soccer team had the ability to exhibit sportsmanship, pride, and to prove that soccer isn't just another "kick in the grass."

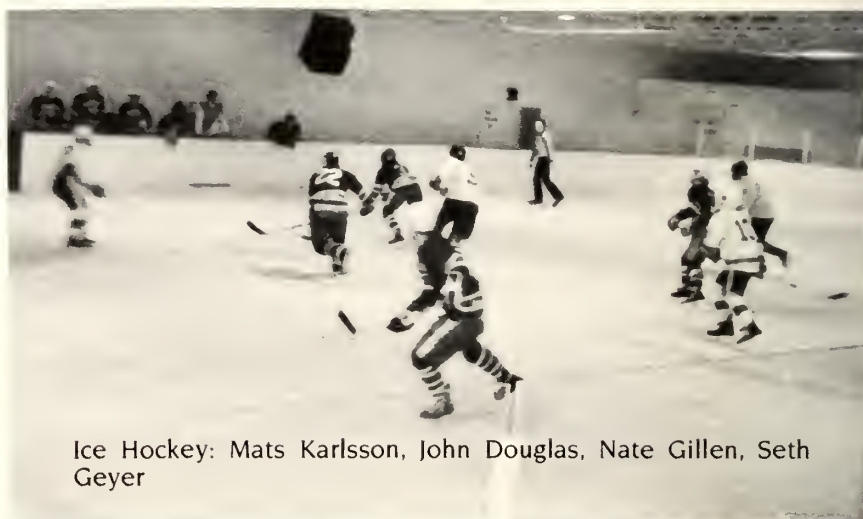

Girl's Soccer Row 1: manager - Michelle Lannou, Yoni Lazier, Alison Rothschild, Shelley Griffin, Sandy Basden, Nikki Hitchings, Lori Bishop, Tasha Pearson, Kelly McMahon, Katherine Morehead, Stephanie Hitchings, manager - Jennifer Sonnenberg. Row 2: manager - Amy Gray, Kristen Acquavella, Kay Tipton, Michele Hager, Wanda Shepard, Lori Molton, Susan Voelkel, Kathleen Master, Sam Westberry, Stephanie Melton, Denise Bowman, Pam Leffew, coach - Barbara Laufersweiler

"We had a very rewarding season. The girls really did an excellent job of working as a team to get as far as they did."

Doing It Their Way

Ice Hockey: Mats Karlsson, John Douglas, Nate Gillen, Seth Geyer

There are seventeen KJHS students who compete in sports not offered at Kempsville Jr. The number of hours that these athletes devote to practice is phenominal, as many of them are also members of KJHS teams and at the same time are honor roll students.

Kempsville Jr. High School students are offered the opportunity to try out for Kempsville High School teams when the sport is not offered at the junior high level. Represented here are members of the golf team, the cross - country team, the indoor track team, and the tennis team. These students travel to

KHS each afternoon during their season to practice with their respective teammates.

Two other sports being represented are not offered on either level. Six people from KJHS are members of the Old Dominion Aquatic Club, a year - round swim team, made up of approximately 150 area swimmers. This sport requires much time, energy and dedication, as there are many hours of practice before and after school each week to enable each member to prepare for competition.

There are five KJHS students who play ice hockey on the

Hampton Roads Youth Hockey team. Their season extends from mid - October to late March as they travel on weekends to compete with teams from Delaware, Maryland, Pennsylvania, and North Carolina. The team practices two nights each week at Iceland to prepare for games and tournaments. Ice hockey is a very physical game which requires strength, stamina, and dedication.

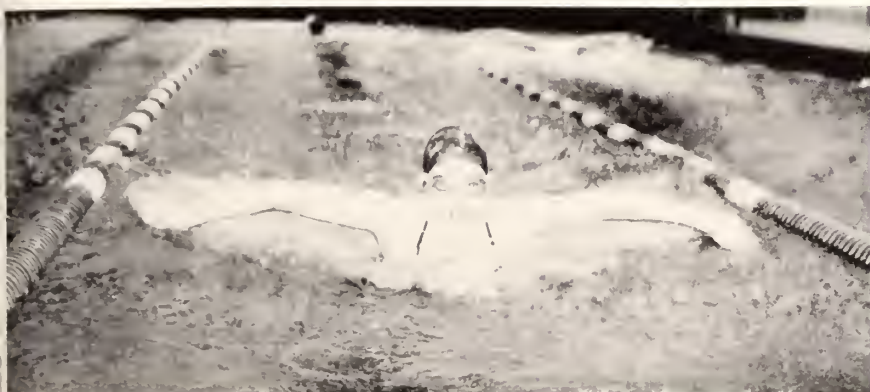

In addition to the many sports offered at Kempsville Jr., these outside teams help to provide for the varied interests of many more students.

KHS Golf: John Douglas

KHS Tennis: Steven Smith

KHS Indoor Track: Shelley Braun, Randall Evans

ODAC: Andrew Kennedy, Erica Swanson, Brian Dye, Kristen Nye, Eric Schmittger, Bobby Horsch

S Cross Country: Shelley Braun, Jenny Martin

4 Sports tars

Each year the coaches at KJHS select the boy and girl Athlete of the Year. These athletes are recognized for their superior athletic performance as members of KJHS teams. In addition to having demonstrated outstanding athletic ability, the Athlete of the Year is one who has demonstrated the qualities of a sportsmanlike attitude, good leadership ability, and willingness to cooperate with the coach and the other team members. It is these qualities, as well as athletic ability and performance, which make a valuable player, and which the coaches commend in their selection of the Athlete of the Year for 1986-87.

This year the coaches have selected Susan Voelkel, Trish Goodwin, and Randall Evans as the Athletes of the Year. Susan was a very valuable part of the basketball and soccer teams. She was one of the co-captains of the basketball team on which she was a very consistent and dedicated player who accepted any challenge. Her coaches agreed that her enthusiasm was contagious.

An important member of both the field hockey and soft-

ball teams, Trish was an aggressive player who cooperated with other team members. As co-captain of the '86 field hockey team, she showed the determination to win as she led the team to the city finals. Her coaches agreed that she not only is a team leader but demonstrates willingness to follow the directions of the coach.

Randall was a letterman in both football and track. He has broken records in both sports and has been a key member of two city-championship teams in each of those sports. His speed on the track and his abilities on the football field are phenomenal, and he has been awarded Most Valuable in both sports. Randall's athletic ability has contributed to the success of each team.

Susan, Trish, and Randall have played valuable roles in the successes of the KJHS sports teams, and have set fine examples by demonstrating the qualities of good sportsmanship and leadership. Congratulations to each of them as they receive the award of Athlete of the Year.

UPERL TIVES

Each spring at KJHS it is tradition for the ninth grade class to vote for the superlative candidates of their choice. Ninth graders were given the opportunity to nominate a girl and a boy in each of ten categories whom they felt best represented their class. This award recognizes students with special interests, talents, and traits that make them stand out above all the rest. The pictures of the winners and the names of the runners-up are included here. Congratulations to all of you as you become a part of KJHS tradition - some things never change.

FUN the natural Art Form

To dream the impossible dream,

To ride the unrideable wave,
To skate the impossible ramp,
To run where only a brave dare
to go.

Poetry; an ancient art that's nearly untraceable. This piece is about fun, the art of enjoying one's self - the original... natural art. It's easily traced to the day you were born. We've had fun all of our lives but these are the ultimate years. Consider what you do for enjoyment. Do you hit the beach, the sidewalk, or just any party you can find on? Perhaps you do something unmentioned here, or perhaps you do all of the above. Whatever you do for fun, prepare yourself, for summer is near. That time when you can breathe easy. There is no homework, no jammed lockers, and a full seven extra hours in your day. Take it easy, take your time, but most importantly, take it as it comes. Don't let anything stand in the way of your pursuit of fun, and remember - you are creating art.

The fall pep rally raises the noise pollution level a bit

There's more than one Natural Art
in the world.
Further down the beach a
pyramid is ruined.

Our Time

Though many people had
walked this path before, the
way we walked was different;
special in its own way — this
was “our time”.

It was a time to learn...

learn about life
learn about friendships, and
learn about our limits,

and a time to love...

love life
love each other, and

love ourselves.

It was a time to laugh...

laugh about good times
laugh about our downfalls,
and
laugh when we wanted to
cry,

and a time to cry...

cry tears of joy
tears of pain, and
tears of sorrow.

It was “a time of innocence,
a time of confidences...” It was
our time — precious time in-
deed.

Together As One

The waves lapping at the shore
made pliable the sand,
in order that we could
shape it
with our own hands

With nothing to work from
except sand that was wet,
we started building
something
we didn't know about yet

We worked diligently to
perfect
everything on the way,
and it started taking
shape
a little more everyday

We finished the framework
and began the inside,
using no model
having fate as our guide

We worked in the sun
sometimes stopping to
rest;
but always hoping, always
striving
for only the best

Our creation was
sometimes hurt
by the incoming tide,

but we knew we must
rebuild it;
and do it side by side

We worked much harder
making it ever so strong,
with the help of our
friends
that were there to lean on

Then we looked it all over
making everything neat,
when, at last we realized
our castle was complete

We were building a
sandcastle;
our year which is gone,
we knew not what it was
but pressed steadily on

The way we got through it
and made it so real,
was by braving the storms
and learning a great deal

No, we'll never forget
those days in the sun,
or the way that we shared
them:
Together As One...

- Trish Goodwin

I think when people say goodbye they don't mean it as a forever sort of thing. It's a way of reassuring ourselves that we'll always be together. We have only memories of past years, and look forward to what we may be able to create. When we look at our year, we see fun at games, dances, and the everyday routine that became such a major part of our lives. Yet, I, like many other people, see the past year as a time that has passed so quickly. But the years of junior high have helped us all to learn how so many people touch so much of our lives. Where would we be without our families, teachers, and friends? These people helped make these times so memorable.

When each of us moves on to high school, we will miss junior high because it is where we've grown and learned the most. We should all look ahead and not be afraid, because we know that this year has to end and we must go forward. But, whatever we do, we can always try things in A Whole New Way.

Venture

The 1987 Venture Staff would like to extend our deepest appreciation to the following people for their unending support.

Mr. Fields and administration - for their understanding and encouragement.

Mr. Bob Booth - for all his time spent helping us organize our schedules.

Mrs. Jean Lee - for all her help with the faculty section.

Mrs. Susan Albert - for her help with our sales and bookkeeping.

The Faculty - for their cooperation and time when we needed it.

Mr. John Perry - for sharing a great deal of his experience and opinions with us.

School Pictures, Inc. - for their assistance with photography.

Miss Mary Gamble - for her friendly companionship and needed help.

Ms. Amanda Wray - for her unlimited amount of time, advice, and friendship.

Our Parents - for their patience, guidance and support.

All of these people contributed to the success of Venture '87 in A Whole New Way.

Thank you,

The '87 Venture Staff
